The Maternity Digital Landscape

*“There were errors in the data”
“They didn’t understand the data”*

“Measures are meaningful and timely”

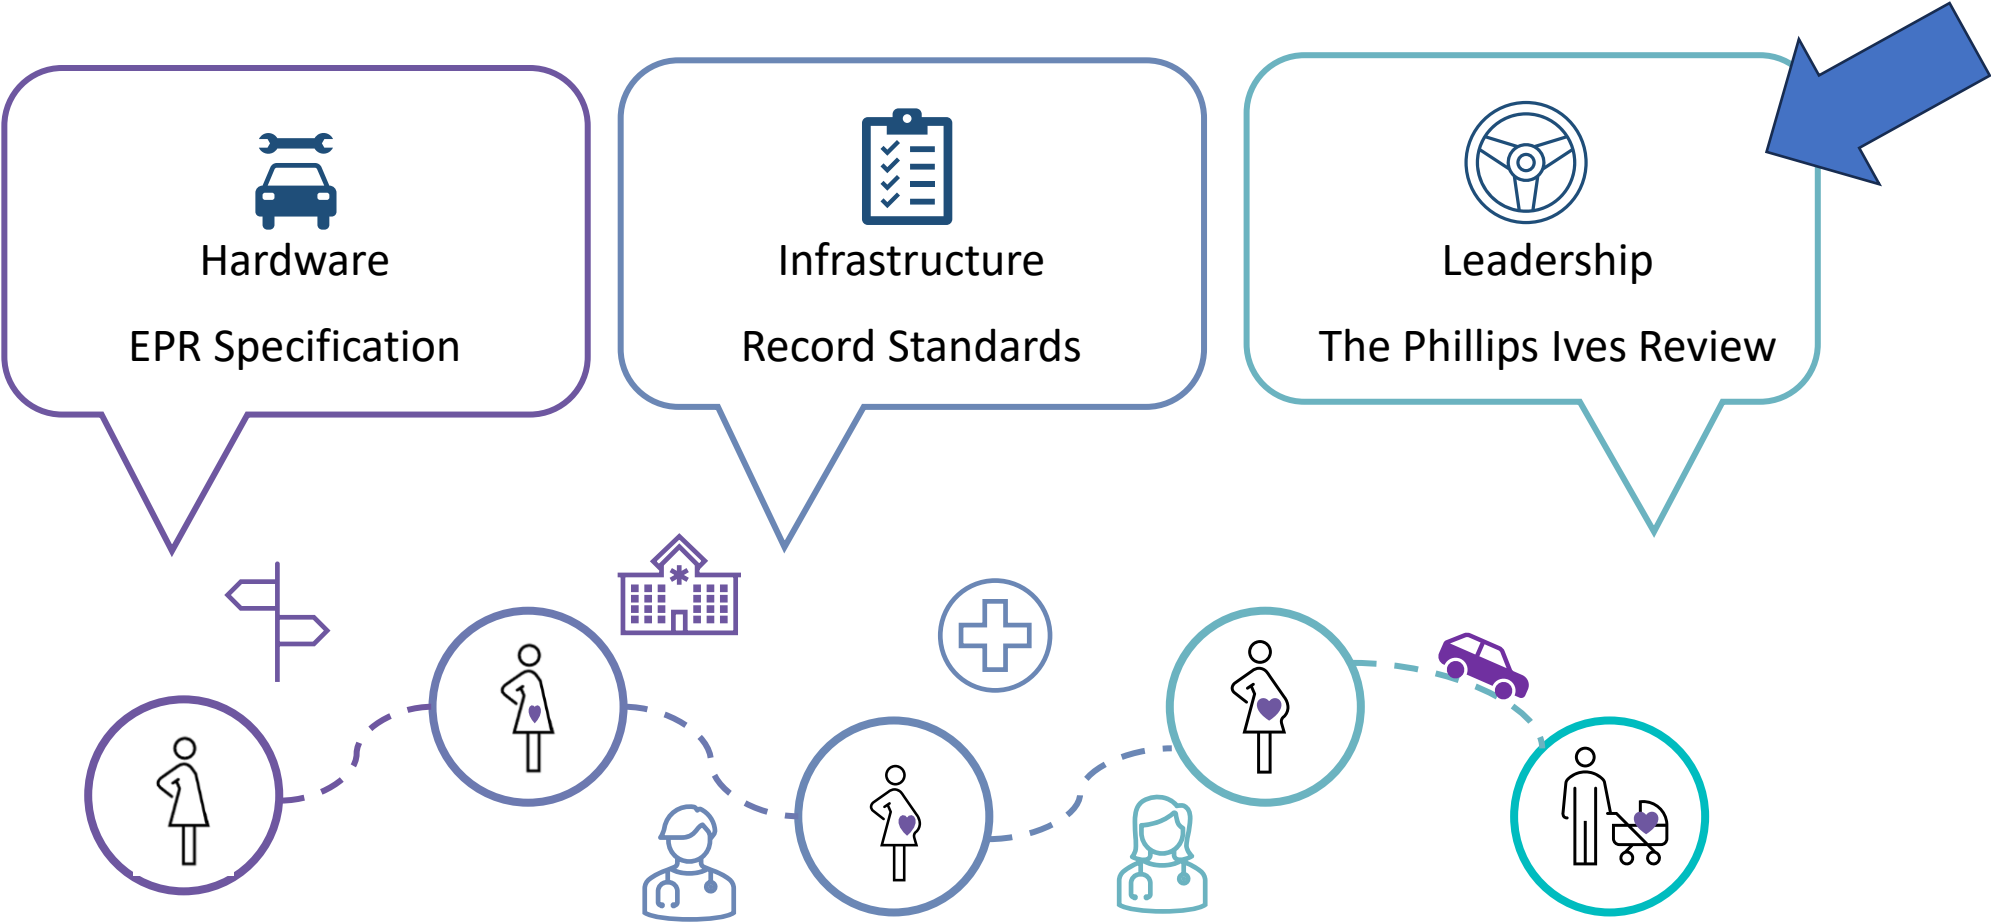

Objective 12: Make better use of digital technology in maternity and neonatal services

3 Yr. Delivery Plan

Our ambition is:

- **Women can access their records and interact with their digital plans** and information to support informed decision-making. Parents can access neonatal and early years health information to support their child’s health and development. Information meets accessibility standards, with non-digital alternatives available for those who require or prefer them
- All clinicians are supported to make best use of digital technology with sufficient **computer hardware, reliable Wi-Fi, secure networks, and training**.
- Organisations enable **access to key information held elsewhere** internally or by partner organisations, such as other trusts and GP practices.

120 midwives, obstetricians, analysts and project managers have been offered digital leadership training

20 Shuri Digital Midwife Fellowships in 2022 and 2023

Currently we have >300 members from a variety of professions

Improving the quality of data captured - The Reflective Tool

Created by Digital Midwife Caroline Saywood
(East of England)

Allows staff member to reflect on the incident
of poor/inappropriate documentation including
the learning from it

Can be transferred to revalidation/ portfolio

Electronic Maternity Record Reflective Account Form

Use this form to record a reflective account on an event / experience of electronic maternity record keeping where a record keeping or data quality error has occurred and how this relates to the Code. Please fill in a page for each of your reflective accounts, making sure you do not include any information that might identify a specific patient, service user, colleague or other individuals. Please refer to guidance on preserving anonymity in the section on non-identifiable information in How to revalidate with the NMC.

[RCM Electronic Record Keeping Guidance](#)

Date: Click or tap to enter a date.

Reflective Account: Click or tap here to enter text.

What was the nature, and impact, of the electronic record keeping / data quality error experience in your practice?

Click or tap here to enter text.

What did you learn from the electronic record keeping / data quality error experience in your practice?

Click or tap here to enter text.

How did you change or improve your electronic record keeping as a result?

Click or tap here to enter text.

How is this relevant to the Code?

Click or tap here to enter text.

Joiner Reflection Tool created by Caroline Saywood and implemented in affiliation with James Paget University Hospital, Norfolk and Norwich University Hospital and Queen Elizabeth Hospital, Kings Lynn

MANCHESTER UNIVERSITY NHS FOUNDATION TRUST

Who we are

#DHSS23

Largest provider of specialist services in England, covering a population of 2.8 million. Sole provider for several tertiary services across Greater Manchester

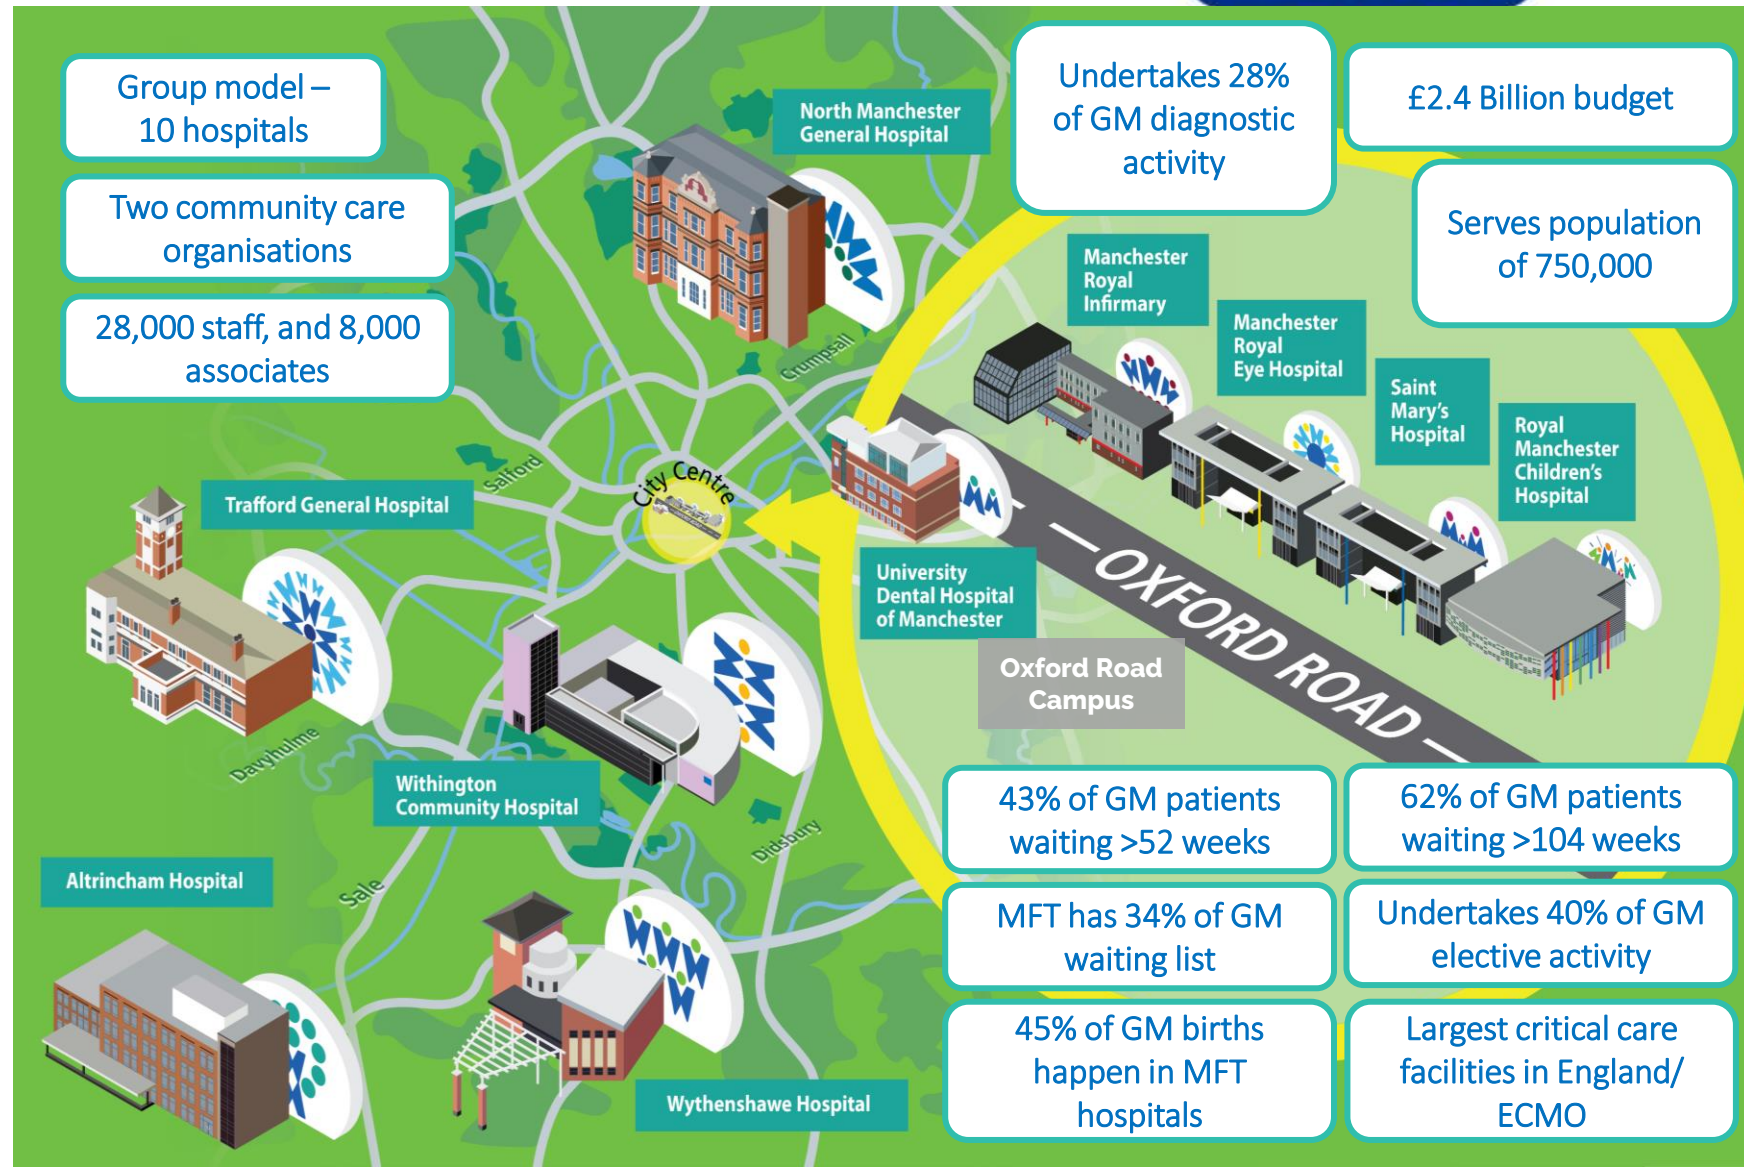

Leading Trust in the North-West for research and teaching

Unique clustering of clinical services with life sciences and academia

An 'anchor' organisation supporting the transformation of public service provision.

Developing Digital NMAHP

Overview

- Key contacts for professional groups
- Specialising in specific NMAHP configuration across the EPR
- Lead and enhance digital projects (digital handover, care planning, BCMA)
- Gate keepers to other members of the MDT and services for Hive and wider IT team.
- Clinical Safety Officer trained.

Key activities

- Built and developed NMAHP related functionality.
- Coordinated specific NMAHP related Rapid Decision Groups (RDGs).
- Facilitated clinical system design integrated area.
- Central to user satisfaction to undertake system 'quick wins'
- Lead clinical safety process and contribute to risk management processes
- Engagement and training activities with NMAHP at all clinical levels – ward to board
- Support improving data and digital confidence

Career Pathway

#DHSS23

Digital Nursing, Midwifery and AHP roles

Band 6

Digital Support Facilitator

- Support digital programmes of work developing training resources and providing user support
- Facilitating improvement work supporting the Digital HCP
- Engage and work with NMAHP services to support

Band 7

Digital Nurse/ Midwife/ AHP

- Accredited builder in appropriate Hive EPR module
- Develops digital workflow and content specific to NMAHP requires
- Lead clinical projects associated with digital enablement
- Contribute to Clinical Safety Officer processes

Band 8a

Digital Matron

- Identify, lead and support digital transformation within NMAHP services working alongside
- Support ongoing improvement and refinement of digital solutions
- Undertake Clinical Safety Officer reviews and other risk management activity associated with informatics

Band 8b

Lead for NMAHP Informatics

- Embed digital ways of working across the organisation and developing appropriate governance strategies to ensure this
- Key conduit between the clinical services and informatics
- Lead and support large scale digital change across the organisation
- Data steward and champion

Senior Leadership

Chief Nursing Informatics Officer/ Deputy

- Strategic leaders ensuring digital is central to NMAHP education & workforce, patient experience, policy & professional practice and research
- Provide leadership and consultative roles to programmes of work across the organisation
- Work with MFT chosen digital providers to ensure NMAHP interests are supported
- Support external digital programmes of work to benefit MFT

Preparatory roles

Quality Improvement Champion

Super User/ Floor walker/ Digital Champion

Digital NMAHP Forum/ Pathway Council Rep

Clinical Educator

Research Nurse/ Midwife

EPR Trainer & Developer

Practice Based Educator

Quality Improvement Manager

EPR Clinical Content Analyst

Change Agent, Transformation

Matron

EPR Clinical Module Lead

EPR Workstream Lead

Education Opportunities:

- Digital Leadership Programme – CMI L7
- Epic Accreditation
- Florence Nightingale Digital Scholarship
- NHS Academy: Digital Health Leadership Programme (PGCert)
- Clinical Data Science (PG Cert)

Final thoughts

Incredible opportunities to enhance patient care and the quality improvement agenda

Take your leaders with you, keep celebrating and showcasing your work

Own the NMAHP agenda ensuring processes in place to agree changes in practice – this will support ownership & adoption

Constantly emerging and developing workforce, from pre-registration to future CNIO's

Multi-disciplinary digital teams are a must have

The digital community is supportive and keen to learn

Embrace pioneer syndrome

The rise of the CNIO / CMIO
